Key strategies to achieve the vision

1

Enhance corporate culture handing-down, reinforce human resources training & development, and solidify plans for management succession

2

Strengthen sales channels through overseas investment

3

Secure self-sufficiency in raw materials through strategic upstream investment

4

Increase the supply chain value of steel-related industries by developing advanced products & technology and green manufacturing process

5

Enhance client relationships and networks through engineering, technical, and information management services

6

Implement cost reduction measures, enhance energy-saving & environmental protection, and strengthen workplace safety

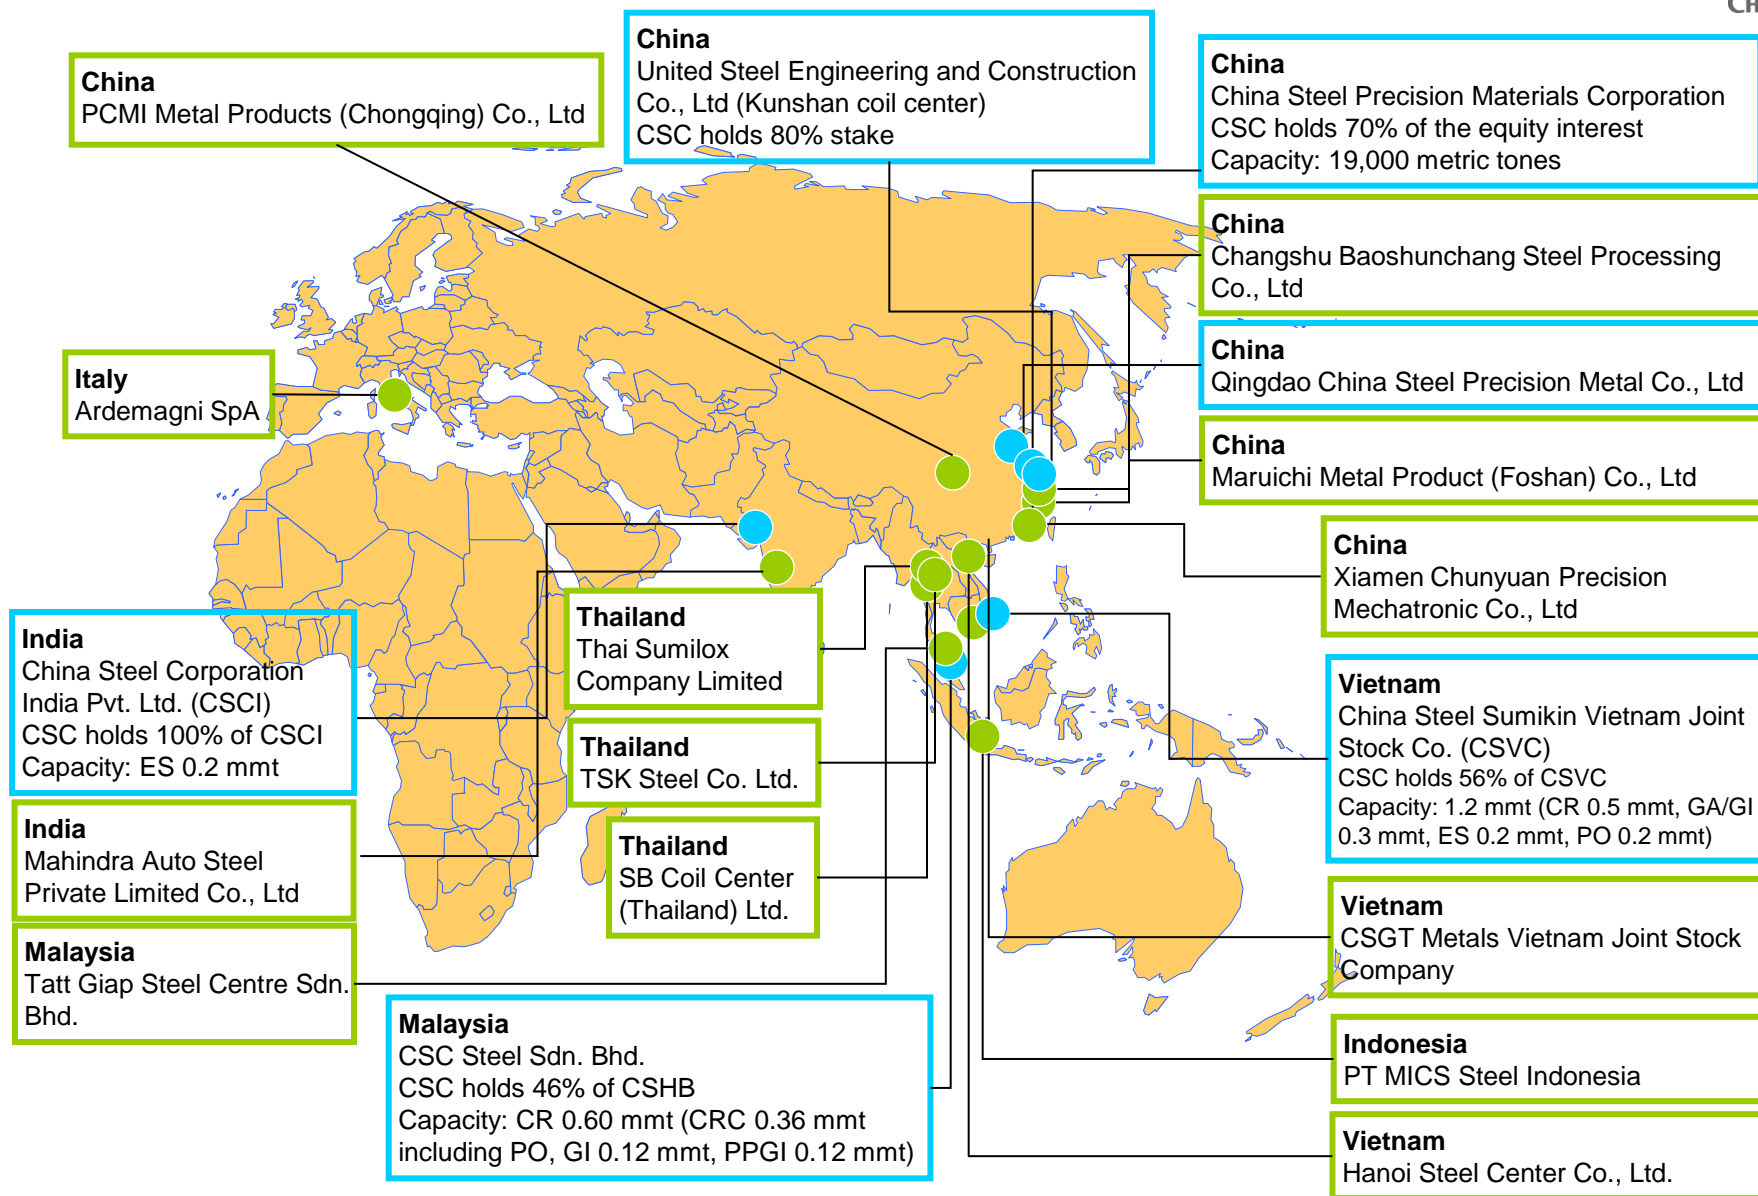

With the key strategies implemented, China Steel Corporation aims to become a trustworthy steel partner pursuing growth, environmental protection, energy saving and value-innovation

Strengthen sales channels through overseas investment

CHINA STEEL

New Asia Project

● Overseas Investments of CSC group ● Co-invest in coil centers with peers and customers through China Steel Global Trading Co.

Secure self-sufficiency in raw materials through strategic upstream investment

■ Major raw materials ● Semi-products ● Ferroalloy

Major raw materials

- Iron ore and coking coals are secured by long-term contract (volume)
- Partner with parties in Japan, South Korea, Mainland China, Australia and Brazil
- Secure lime stone - acquired 39.04%(group shareholding) in Hsin Hsin Cement

Semi-products

- Secure supplies from strategic partnerships and JV's
- East Asia United Steel Corp.
 - NSSMC's Wakayama plant as a reliable supply source for slab
- Formosa Ho-Tinh Steel Corporation
 - As a mutual supply of hot-rolled and slab products.

Ferro-alloy

- Long-term contract to reduce market risks
- Purchased 5% stake in Dongbu Metal, Korea's largest ferro-alloys producer
- Purchased 19% stake in Sakura Ferroalloys Sdn. Bhd.
 - Ensures a long-term stable supply of ferro-alloy, and lowers the acquisition cost.

Increase the supply chain value of steel-related industries by developing advanced products and technology and green manufacturing process

CHINA STEEL

Engineering Research Center (ERC)

Through an innovative approach, ERCs strategically focus R&D effort on the need of industries and implement systemic, profound, and comprehensive long-term academic researches.

Alliance for Steel Industries

CSC forms alliances with customers to improve international marketing and service capabilities.

Taiwan Elite Handtool Organization
Alliance for the fastener industry (under planning)

Enhance client relationships and networks through engineering, technical, and information management services

Engineering and Technical services

- Plant Construction
- Technical Consulting
- Environmental Engineering
- Railway and Rapid Transit System Engineering
- Industrial Air Conditioner

Customer services

- Real-time information services of order status
- Applied technology services
- Early vendor involvement

Others

- Domestic and oversea consulting services regarding environmental protection and energy saving

Implement cost reduction measures, enhance energy-saving & environmental protection, and strengthen workplace safety
